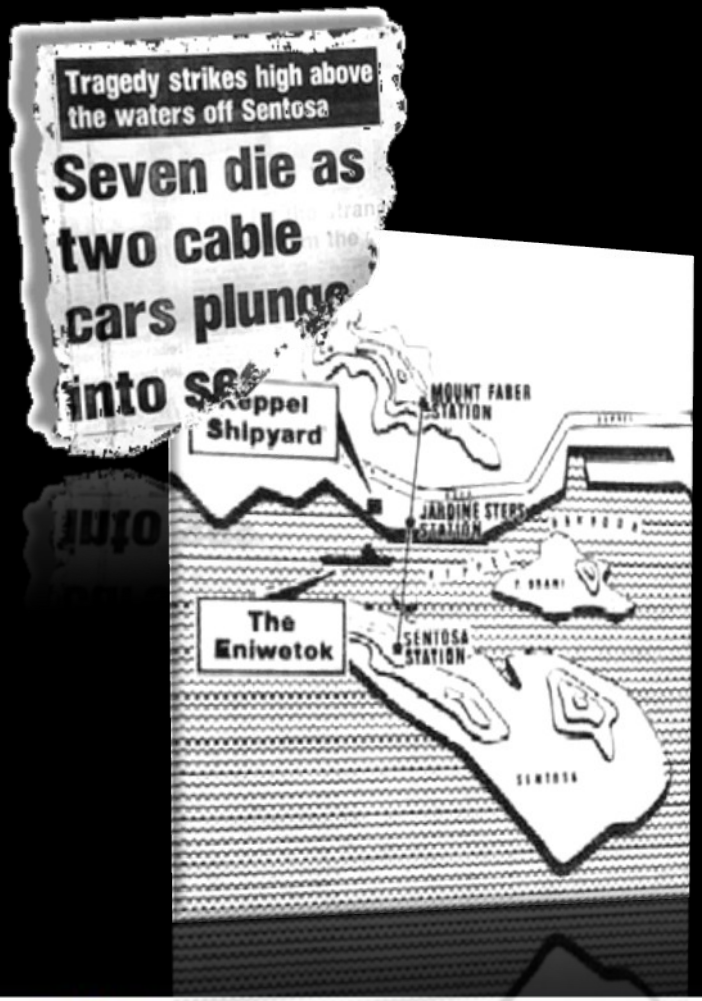
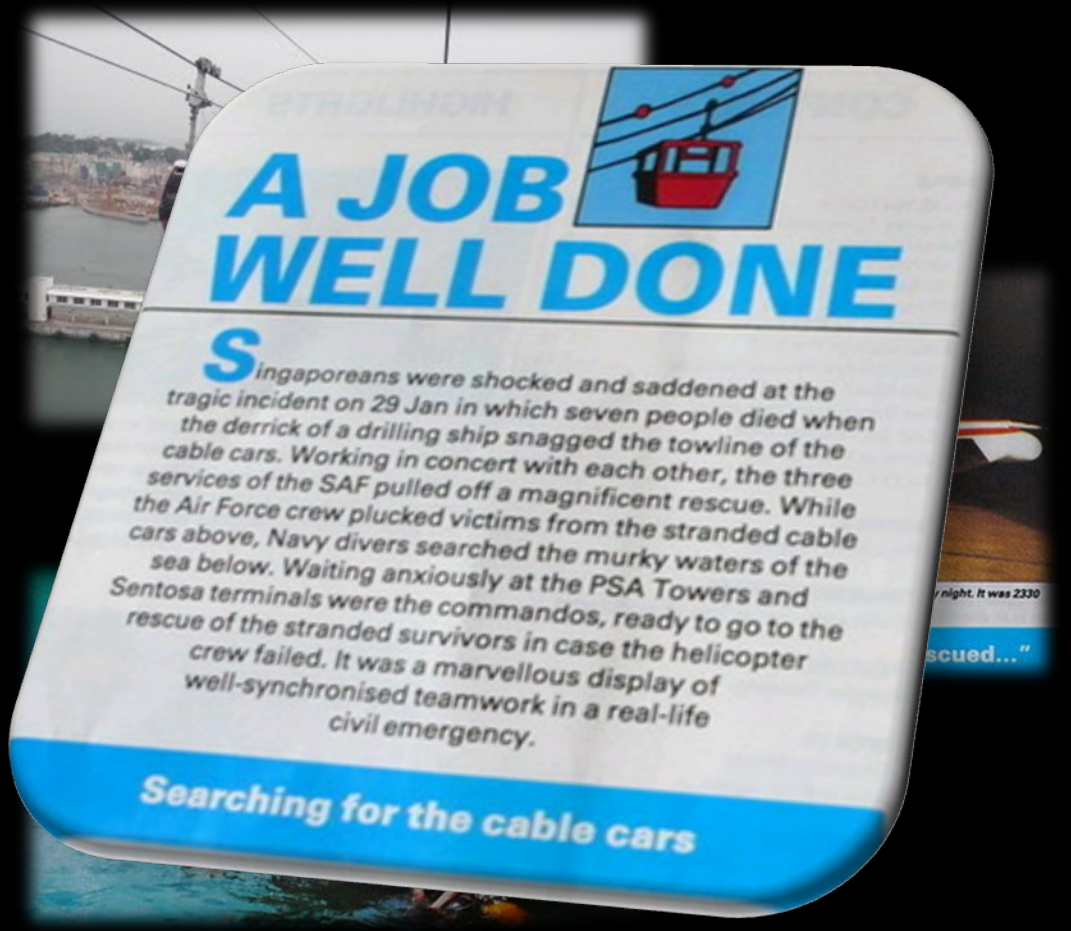
Sentosa Cable Accident

Prime Minister Lee Hsien Loong





A JOB WELL DONE
Singaporeans were shocked and saddened at the tragic incident on 29 Jan in which seven people died when the derrick of a drilling ship snagged the towline of the cable cars. Working in concert with each other, the three services of the SAF pulled off a magnificent rescue. While the Air Force crew plucked victims from the stranded cable cars above, Navy divers searched the murky waters of the sea below. Waiting anxiously at the PSA Towers and Sentosa terminals were the commandos, ready to go to the rescue of the stranded survivors in case the helicopter crew failed. It was a marvellous display of well-synchronised teamwork in a real-life civil emergency.
